THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Dervishian on June 20, 2008.

2. The application has been amended as follows:

In claim 85, line 15, after the word "value" inserted --for determining respective packets as being received during one of the plurality of successive first time periods--.

In claim 91, line 1, the word "system" is removed and inserted with --network monitor--.

In claim 91, line 5, the phrase "a processor" is removed and inserted with --a first processor--.

In claim 91, line 10, the word "absolute" is removed and inserted with --external--.

In claim 91, line 10, the semicolon ";" is removed.

In claim 91, line 11, the phrase "a processor for determining a time" is removed and inserted with --used for determining--.

The examiner's amendment above was made to place the claims in condition of allowance.

Allowable Subject Matter

3. Claims 5, 9, 11, 16, 18, 28, 30-34, 79-82, 84, 85, 91, and 92 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the steps of or means for **“generating a further statistic corresponding to packets received during the second time period using at least one of the stored records and the stored statistics corresponding to packets received during the second time period”**, when the generating is considered within the specific structure of the method recited in claim 5. The prior art of record fails to teach or make obvious the steps of or means for **“receiving a time signal from a global position satellite and generating a time when each selected packet was received based on an absolute time”**, when the receiving is considered within the specific structure of the method recited in claim 9. The prior art of record fails to teach or make obvious the steps of or means for **“calculating a transmission delay corresponding to each packet by subtracting said packet's respective second time from said packet's respective first time wherein the transmission delay corresponding to each packet is calculated based on a time the packet is detected on the first communication line, a time the packet is detected on the second communication line, a rate of data transmission on the first communication line, and a length of the packet on the first communication line”**, when the calculating is considered within the specific structure of the method recited in claim 11. The prior art of record fails to teach or make obvious the steps of or means for **“generating a statistic corresponding to the selected packets received during each of a plurality of successive first time periods, the first time periods having a**

first duration value, the statistic including at least one quality of service value indicating at least a round trip delay time and a retransmit rate”, when the generating is considered within the specific structure of the method recited in claim 18. The prior art of record fails to teach or make obvious the steps of or means for **“generating a graphical display of the statistics corresponding to the plurality of packet types in a plot ranging over the second time period on a second portion of the display area, wherein the plot includes a plurality of discrete selectable time periods”,** when the receiving is considered within the specific structure of the method recited in claim 28. The prior art of record fails to teach or make obvious the steps of or means for **“recreating the data stream using the stored records and the stored stream identification information”,** when the recreating is considered within the specific structure of the method recited in claim 30. The prior art of record fails to teach or make obvious the steps of or means for **“comparing the uniquely identifiable portions of packets received from the first communication line to the uniquely identifiable portions of packets received from the second communication line to determine which selected packets received from the first communication line correspond to packets received from the second communication line to generated matched pairs of packets,** when the comparing is considered within the specific structure of the method recited in claim 31. The prior art of record fails to teach or make obvious the steps of or means for **“generating a statistic corresponding to the selected packets received during each of a plurality successive first time periods, the first time periods having a first duration value, the statistic including**

Art Unit: 2619

a number of packets corresponding to unsuccessful communication sessions received during each successive first time period”, when the generating is considered within the specific structure of the method recited in claim 79. The prior art of record fails to teach or make obvious the steps of or means for **“correlating the adjusted interface clock value with the host clock value for determining respective packets as being received during one of the plurality of successive first time periods”**, when the correlating is considered within the specific structure of the method recited in claim 85.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
